

# Join Our Team!

## Non-Invasive Cardiologist

St. Mary's General Hospital is excited to invite applications for a General Cardiologist with level III echocardiography training. If you have completed at least a one-year fellowship in adult echocardiography and have a strong foundation in general cardiology, we want to hear from you!

### WHY JOIN US?

**Diverse Role:** Engage in all aspects of echocardiography, including diagnostic TTE, TEE, and stress echo (exercise, bike, and dobutamine).

**Specialization Opportunities:** Focus in areas such as cardio-oncology or congenital heart disease.

**Professional Development:** Benefit from an environment that values interventional echocardiography, multimodality imaging, quality improvement, and research.

**Teaching Opportunities:** Contribute to medical education at our affiliated teaching site for the Waterloo Campus of McMaster's medical school.

### JOIN OUR TEAM AND SERVICES:

**Collaborative Team:** Work alongside a team of 10 dedicated echocardiographers, 3 cardiac surgeons, 7 interventional cardiologists, and 3 electrophysiologists.

**Comprehensive Coverage:** Provide inpatient cardiology services and overnight general cardiology call.

**High Volume Expertise:** Gain experience with a high volume of echo, TEE, and stress echo procedures, and assist in reading TTEs for six peripheral hospitals.

**Innovative Programs:** Be part of our growing structural heart program (TAVI, ASD/PFO closures), full EP lab, and advanced cardiac surgery group. Look forward to future developments in LAA Closure and Mitra-Clip programs.

### REQUIREMENTS:

The successful candidate must hold or be eligible for independent licensure with the College of Physicians and Surgeons of Ontario and provide a minimum of three references.

### ABOUT OUR REGION:

St. Mary's world-renowned team of cardiac specialists, medical staff and team members provide innovative, compassionate and lifesaving care each year serving over 1.4 million residents in Waterloo Wellington and beyond stretching from Grey Bruce to Haldimand Norfolk.

Our full-time cardiac team includes 3 cardiac surgeons, 7 interventional cardiologists, 3 electrophysiologists, and 10 echocardiographers. Over the past 5 years, we have experienced significant growth with the development of a structural heart program (TAVI, ASD/PFO closures), a fully-equipped EP lab (handling both complex and simple ablations, and a wide range of device implantations), a comprehensive array of complex PCI procedures, and an innovative Cardiac Surgery group. Additionally, we are planning to introduce an LAA Closure and Mitra-Clip program in the near future.

The Waterloo region is a rapidly expanding metropolitan area that encompasses the tri-cities of Kitchener, Waterloo, and Cambridge. The presence of two universities and a thriving technology sector further enhances the appeal of this region.
